

- A. If you are using the **ApplicationXtender Web Access .NET** browser, once you have created a query and received the result set, simply scroll all the way to the right. At the top of the screen will be a “Modify Query” link which will take you back to the original query, leaving all the original values populated.

The screenshot displays the Microsoft Internet Explorer browser window titled "ApplicationXtender Web Access .NET". The address bar shows the URL: <http://contentmanagement/appxtender/Main.aspx?DataSource=Image-1>. The browser interface includes a menu bar (File, Edit, View, Favorites, Tools, Help) and a toolbar with navigation buttons (Back, Forward, Stop, Refresh, Home, Print, Search, Favorites, Reload, Mail, Print, Stop) and a "Go" button.

The main content area of the browser shows a "Modify Query" link. Below this link is a table with the following columns: **CUSTOMER LOCATION**, **CUSTOMER DIVISION**, **POLICY EFFECTIVE DATE**, **FIELD OFFICE**, **INDEXED DATE**, and **Pages**. The table contains five rows of data, with the last row highlighted in blue.

CUSTOMER LOCATION	CUSTOMER DIVISION	POLICY EFFECTIVE DATE	FIELD OFFICE	INDEXED DATE	Pages
				05-07-2007	1
				05-07-2007	1
				05-04-2007	1
				05-04-2007	1
				05-04-2007	1
				05-04-2007	1

The status bar at the bottom of the browser window shows "User:dak; DataSource: Image-1; Application: REPORTS-CLAIMS" and "Local intranet".
