

For users of **AX Web Access.NET** (browser), on the Query Results screen you will need to right mouse click on the document and select Print. On the Print dialog box, Print Range section, select the specific pages you would like to print and select OK.

If the document is already opened on the screen, click the icon with the printer and the hand  and select Print. Again the Print dialog box will appear and you can indicate the specific pages to be printed in the Print Range section. Select OK and the pages will be printed.

The screenshot shows a 'Print' dialog box with the following fields and options:

- Printer:**
 - Name: HP LaserJet 6L (dropdown menu)
 - Status: Ready
 - Type: HP LaserJet 6L
 - Where: LPT1:
